

I would like to express that I would be devastated if K-LOVE radio station was taken off of the air. I listen to this station almost all day long, both in my car and at home. The music is so uplifting and encouraging, and keeps my focus on the Lord, which helps me deal with anything. I believe it is also a light in the community, both for Christians and non-Christians, because it offers an alternative to some of the negative-focused and inappropriate music and talk on much of the other stations. It is a station I feel completely comfortable letting my eight year old son listen too, and he loves it too. K-LOVE is also an invaluable outreach tool for all communities it serves by showing people the love of Jesus. Thousands of people have come to know Christ through this radio station. If this station was replaced with other programming, we would have literally nothing to listen to on the radio. K-LOVE is trully a light in our lives that lifts us up each and every day. It has changed my family in an indescribable way. I plead with you to keep K-LOVE on the radio. I believe that every city everywhere needs this radio station. I know that we need it desparately. Thank you for considering my request. God Bless You.
